

Student Testimonials

Hear what former students have to say about the Pre-Employment Training Program

Janette Einpahr - Hired by McCain

"The Pre-Employment Training Program gave us the opportunity to visit the different facilities and, best of all, to taste the products produced on site. It wasn't just filling out an application and dropping it off; I had the chance to go inside and see the facility."

Walter Hayes- Hired by Columbia Colstor

"The Pre-Employment Training Program gave me an overall knowledge to be able to work in a production environment. Great program to get a good job!"

Cornelio Maltos - Hired by SVZ

"The Pre-Employment Training Program gave me the confidence to learn new things, an introduction to GMP's and HACCP, helped me recognize unsafe environments and take the proper precautions, helped me with people skills to work better with other employees, and gave me an idea of the companies involved with the Pre-Employment Training Program and what they expected out of an employee."
